
Product Catalogue

A Product design and development Company that aims to dominate retrofit smart home automation with global ambitions. Hogar offers customized smart solutions for both new houses that are mostly integrated with smart devices and also for the existing homes that still use conventional technologies.

//

Simple.
intuitive.
Transformative.

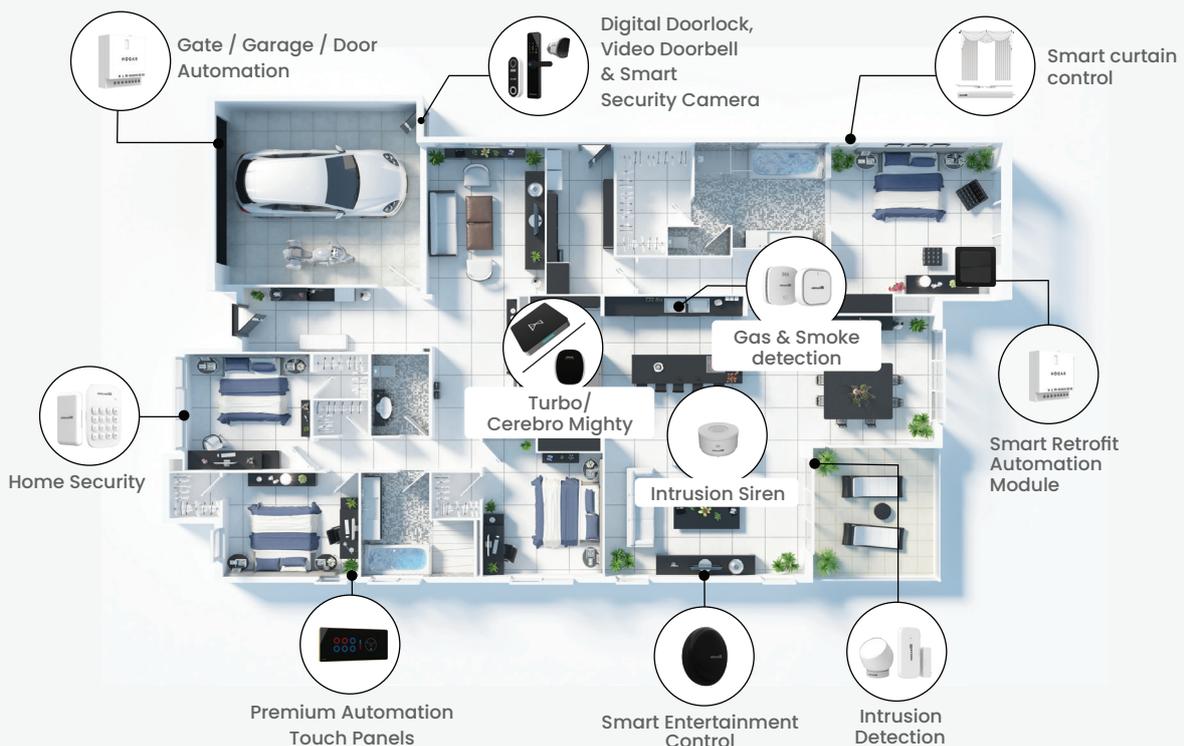

Hogar
Spanish

noun
Home

A home is an experience.

The Hogar product lines have defined magical, wireless smart home solutions consisting of touch panels, home controllers, and extensive curtain automation since inception. Building on this we set out to take the smart experience onto the next level. Introducing Hogar Elite Series.

Home automation solutions over the last decade have taken a big leap forward with roots in both wired and wireless solutions. Most of these solutions require extensive installation & civil work. The Hogar Elite range of products are completely retrofit and offers a plug-and-play solution with minimal DIY configuration process. Each product can be installed, configured, and included to the Elite eco-system in just 2 minutes. What's more, it's the perfect combination of aesthetics that complements your beautiful home along with providing tight protection to your home with a complete range of sensors.

ENHANCED LIFESTYLE

Lights will automatically turn on and off depending on movement detection in the rooms. This saves energy and makes living more comfortable.

SECURITY & SURVEILLANCE

Secure your premises and get alerts on intrusion can be integrated with 3rd party security devices.

ENERGY SAVINGS & MANAGEMENT

Track your daily, monthly or annual consumption. Optimize your electric and water usage and save up to 50% on energy bills.

HEALTHY LIVING

Reduce Carbon footprint with automated purification system and contribute towards creation of green environment.

TUNE TO YOUR MOODS

Change room lighting & temperature for different occasions based on pre-defined logics.

ENHANCED PRODUCTIVITY

Get priority tasks automatized and get them finished much faster.

SMART CONTROLLER

SERIES

The mastermind that controls all your smart devices

EASY INSTALLATION

PLUG & PLAY

SMART HUB

APP ACCESS

TURBO

- Z-Wave based Home controller that control upto 232+ devices over a range upto 4000 sqft
- Seamlessly integrates with Hogar Pro S app

No of device	232+ units
Range	Upto 4000 sqft
Wireless protocol	Z-Wave
Encryption	128 bit
Internet Connectivity	Wi-Fi, Ethernet, 3G/4G USB Modem
Mobile Application	Hogar Pro S App

BOLT

- Z-Wave based Home controller that control upto 60 devices over a range upto 2000 sqft
- Seamlessly integrates with Hogar Mini S app

No of device	60 units
Range	Upto 2000 sqft
Wireless protocol	Z-Wave
Encryption	128 bit
Internet Connectivity	Wi-Fi
Mobile Application	Hogar Mini S App

CEREBRO MIGHTY

- Zigbee based Home controller that control upto 60 devices over a range of 30m
- Supports Wi-Fi and seamlessly integrates with Hogar SE app

No of device	60 units
Range	Upto 30m Indoor, 50m outdoor
Wireless protocol	Zigbee
Encryption	WAP/WAP2
Internet Connectivity	Wi-Fi
Mobile Application	Hogar SE App

SMART TOUCH PANELS

Z-WAVE RANGE

4 Touch

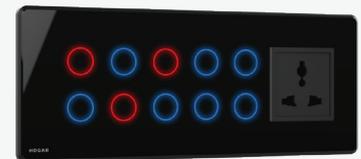

4+1 Touch

10+2 Touch

Prima +

10+1

Color Options:

Bezel Glass

CAPACITIVE TOUCH

SHOCK-PROOF

RETROFIT

Z-WAVE ENABLED

TOGGLE SCENES

Available In

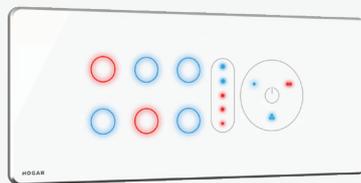

2M	1 Touch, 2 Touch, 3 Touch, 4 Touch, Single Socket
4M	4 Touch with 1 Socket, Dual Socket
6M	8 Touch, 10 Touch, 6 Touch - 1 Dimmer - 1 Fan Speed Controller
8M	10 Touch with 1 Socket, 6 Touch - 1 Dimmer - 1 Fan Speed Controller with 1 Socket
12M	10 Touch with 2 Socket, 6 Touch - 1 Dimmer - 1 Fan Speed Controller with 2 Socket

SMART TOUCH PANELS

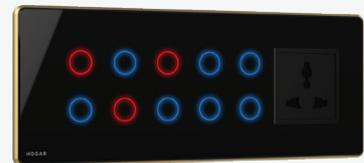

WI-FI RANGE

4 Touch

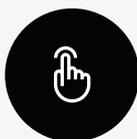

Prima+

10+1

Color Options:

Bezel Glass

CAPACITIVE TOUCH

SHOCK-PROOF

RETROFIT

WI-FI ENABLED

TOGGLE SCENES

- Retrofit switches work with existing wiring
- Programmable touch switches
- Elegant Capacitive Touch Switches
- Optional custom engraving to make your switch unique*

SMART REMOTE

SERIES

Your all-in-one smart remote

AC

TV

STEREO

SET TOP BOX

HOME THEATRE

& MUCH MORE

IR 360 (Z-Wave)

- Control IR devices with pre-configured remotes
- Control through the Hogar Pro S/Mini S app & voice commands

Infrared Distance	<5m (effected by environment)
Protocol	Z-Wave
Operating Voltage	DC 5V / 2A (Micro USB 2.0)
Mobile Application	Hogar Pro S/Mini S App

SMART IR (Wi-Fi)

- Control IR devices with pre-configured remotes
- Control through the Hogar SE app & voice commands

Infrared Distance	<8m (effected by environment)
Protocol	Wi-Fi
Operating Voltage	DC 5V / 1A (Micro USB 2.0)
Mobile Application	Hogar SE App

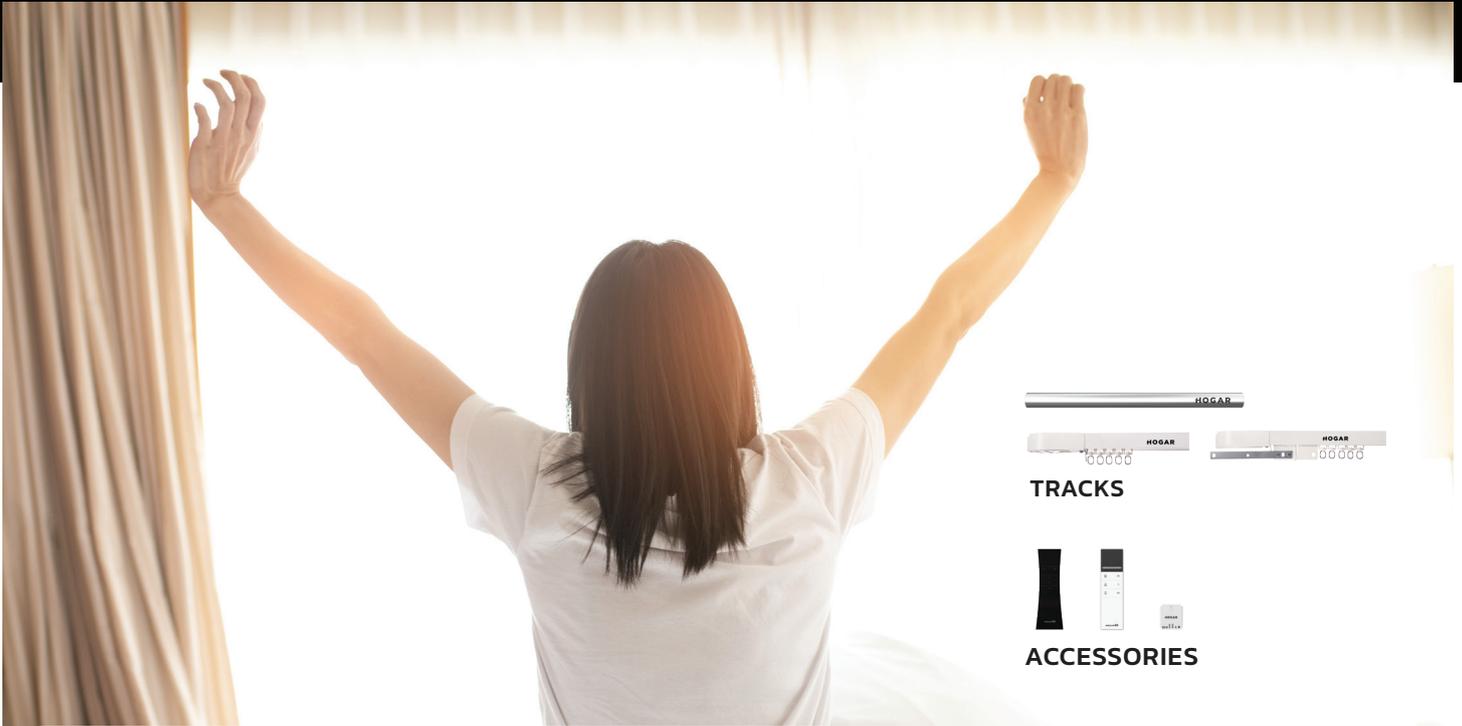

SMART IR + TEMPERATURE & HUMIDITY (Wi-Fi)

- Control IR devices with pre-configured remotes
- Realtime calendar, temperature & humidity monitoring
- Control through the Hogar SE app & voice commands

Infrared Distance	<8m (effected by environment)
Protocol	Wi-Fi
Measure Range	0°C~60°C 0% RH ~ 99% RH
Mobile Application	Hogar SE App

SMART CURTAIN

SERIES

TRACKS

ACCESSORIES

RF70

Low Noise

Wired

70 \times G

Max Load Capacity

Product Type	Heavy Duty	Rated Torque	2.0 Nm
Rated Speed	80/120 RPM	Rated Voltage	220-240 V AC
Noise	<38 dB	Communication	RF
Wires	5 Wire	Mobile Application	Hogar Pro & Hogar SE App
Motor Length	308.5 mm	Motor Width x Breadth	54.4 x 84.9 mm

RT20

Low Noise

Wired

20 \times G

Max Load Capacity

Product Type	Super Silent	Rated Torque	6.0 Nm
Rated Speed	28 RPM	Rated Voltage	100-240 V AC
Noise	<28 dB	Communication	RF
Wires	4 Wire	Mobile Application	Hogar Pro & Hogar SE App
Motor Length	492.1 mm	Motor Width x Breadth	35.0 mm

VL40

Low Noise

Wired

40 KG

Max Load Capacity

Product Type	Super Sleek	Rated Torque	1.0 Nm
Rated Speed	75/90/110 RPM	Rated Voltage	100-240 V AC
Communication	RF/Wi-Fi	Mobile Application	Hogar SE App
Motor Length	302.7 mm	Motor Width x Breadth	39.4 x 39.4 mm

VL50

Low Noise

Wired

50 KG

Max Load Capacity

Product Type	Super Sleek	Rated Torque	1.2 Nm
Rated Speed	118 RPM	Rated Voltage	100-240 V AC
Motor Length	334.5 mm	Communication	RF
Motor Width x Breadth	39.4 x 39.4 mm	Mobile Application	Hogar Pro & Hogar SE App

VL60

Low Noise

Wired

60 KG

Max Load Capacity

Product Type	Heavy Duty	Rated Torque	1.5 Nm
Rated Speed	75/90/110 RPM	Rated Voltage	100-240 V AC
Motor Length	295.0 mm	Communication	RF/Wi-Fi
Motor Width x Breadth	46.0 x 71.0 mm	Mobile Application	Hogar Pro & Hogar SE App

SMART VIDEO DOOR BELL

SERIES

VDB - VIDEO DOORBELL

- Ultra wide angle HD resolution camera with night vision
- Motion detection with video playback support through Hogar CAM App

Video resolution	1080P/720P/VGA
Memory Card Support	MicroSD Upto 128GB
Connectivity	Wi-Fi - 802.11b/g/n
Communication	2-way audio & 1-way video

BELLA - VIDEO DOORBELL

- Ultra wide angle, HD resolution and night vision for superior monitoring and security
- Motion detection with video playback support through Hogar SE App
- Battery operated upto 30 days of working at single charge

Video resolution	1080P/720P
Memory Card Support	MicroSD Upto 128GB
Connectivity	Wi-Fi - 802.11b/g/n
Communication	2-way audio & 1-way video

SMART INTRUSION

ALARM

VOILA - PORTABLE SCENE CONTROLLER

- Choose from 3 scenes - Single Tap, Double Tap & Long Press
- Portable yet robustly designed for your convenience

No of functions	03
Battery type:	CR2032
Wireless protocol	Zigbee 3.0

KEYPAD - SECURE CONTROL FOR ALARM

- Configure passcodes for four modes, including Away, Stay, Disarm and Panic mode.

No of functions	04
Battery type:	3 x AAA 1.5V
Wireless protocol	Zigbee 3.0

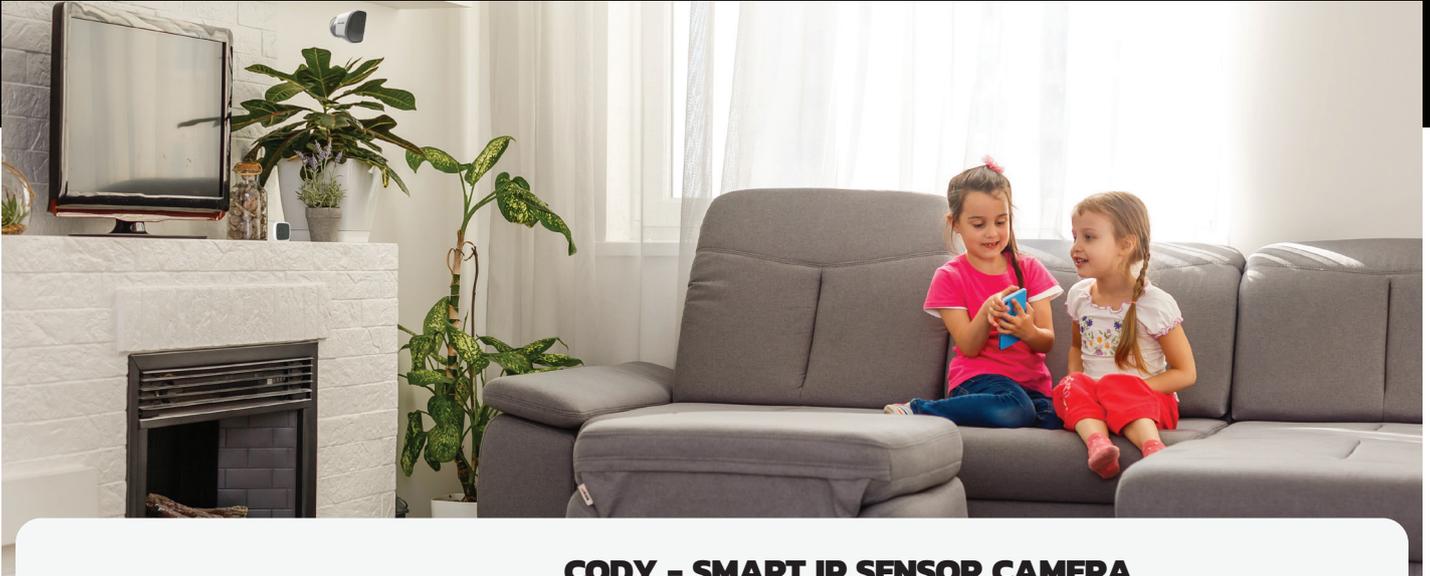

KEYFOB - PORTABLE ALARM ACCESS

- Supports 4 functions including Away mode, Stay mode, Disarm mode and Panic Mode
- Now arm and disarm your alarm system with ease

No of functions	04
Battery type:	CR2025
Wireless protocol	Zigbee 3.0

SMART INTRUSION

SERIES

CODY - SMART IP SENSOR CAMERA

- Wide angle HD resolution camera with night vision
- Battery operated upto 30 days of working at single charge & works on Hogar SE app

Video Resolution	1080P/720P
Memory card	Micro SD Upto 128 GB
Communication	2-way audio & 1-Way Video
Wireless	Wi-Fi 802.11b/g/n

MOTION SENSOR

- Detect movement from upto 7m away at 70° angle
- Push notifications to Hogar app & trigger scene on movement detection

Battery Type	CR2450
Protocol	Zigbee 3.0 & Z-Wave
Battery Life	Upto 12 Months*
Detection Distance	7 Meters

VIBRATION SENSOR

- Triggers when vibration is detected on a surface or glass breakage
- Push notifications to Hogar app & trigger scene when vibrated

Battery type	CR2032
Protocol	Zigbee 3.0 & Z-Wave
Battery Life	Upto 12 Months*
Dimensions	58mm x 36mm x 15mm

DOOR SENSOR

- Triggers when doors or windows are open / closed
- Push notifications to Hogar app & trigger scenes when door/windows is opened

Battery type	CR1632
Protocol	Zigbee 3.0 & Z-Wave
Battery Life	Upto 12 Months*
Separation distance	about 20mm

SMOKE SENSOR

- Detects any carbon-based smoke at a range of 50m²
- Push notifications to Hogar app & trigger scene when smoke is detected

Battery type	CR123A
Protocol	Zigbee 3.0 & Z-Wave
Battery Life	Upto 12 Months*
Detection range	50m ²

TEMP & HUMIDITY SENSOR

- Detects real-time temperature and humidity condition of the room
- Program notifications & trigger scenes as per room temperature & humidity conditions

Battery type	CR2450
Protocol	Zigbee 3.0
Battery Life	Upto 12 Months*
Temp. & Humidity Detection range	-9.9°C - +55° & 0-99%

GAS SENSOR

- Detects LPG gas
- Triggers sound & visual alarm long with notifications to Hogar app when triggered

Battery type	CR2450
Protocol	Zigbee 3.0 & Z-Wave
Operating Voltage	AC 110-230V, 50-60Hz
Detection type	Built in Siren 70dB(front 1m)

INDOOR SIREN

- Activates alarm when sensors are triggered
- Integrates with all Hogar products

Operating Voltage	5V DC Adapter
Protocol	Zigbee 3.0 & Z-Wave
Dimensions	78mm x 41mm
Noise level	≥ 105 dB

SMART RETROFIT

Z-WAVE RANGE

2 NODE - SMART INSERT MODULE

- Control 2 Switches through your smartphone or voice commands
- This Z-Wave based module is retrofit & installs in less than 3 minutes

No. Of output / Channel	2 ON/OFF
Power Requirement	AC 110-230V, 50-60Hz
Connectivity	Z-Wave
Mobile Application	Hogar Pro S/Mini S App

3 NODE - SMART INSERT MODULE

- Control 3 Switches through your smartphone or voice commands
- This Z-Wave based module is retrofit & installs in less than 3 minutes

No. Of output / Channel	3 ON/OFF
Power Requirement	AC 110-230V, 50-60Hz
Connectivity	Z-Wave
Mobile Application	Hogar Pro S/Mini S App

FAN DIMMER

- Control 4 Switches through your smartphone or voice commands
- This Z-Wave based module is retrofit & installs in less than 3 minutes

Speed Control	ON/Off, Low, Medium, High
Power Requirement	AC 110-230V, 50-60Hz
Connectivity	Z-Wave
Mobile Application	Hogar Pro S/Mini S App

1 CHANNEL DIMMER

- Control lights including dimming control through your smartphone or voice commands
- This Z-Wave based module is retrofit & installs in less than 3 minutes

No. Of output / Channel	1
Power Requirement	AC 110-230V, 50-60Hz
Connectivity	Z-Wave
Mobile Application	Hogar Pro S/Mini S App

RGBW MODULE

- To create dynamic lighting that sets your mood
- This Z-Wave based module is retrofit & installs in less than 3 minutes

No. Of output / Channel	4(RBGW)
Power Requirement	12-24V DC
Connectivity	Z-Wave
Mobile Application	Hogar Pro S/Mini S App

SMART CURTAIN MODULE

- 1 Curtain through your smartphone or voice commands
- This Z-Wave based module is retrofit & installs in less than 3 minutes

No. Of output / Channel	1 Curtain
Power Requirement	AC 110-230V, 50-60Hz
Connectivity	Z-Wave
Mobile Application	Hogar Pro S/Mini S App

SMART RETROFIT

WI-FI RANGE

SMART PLUG - Wi-Fi ENABLED PLUG

- Convert any plug point to a smart plug point
- Plug n Play, configure to the app in less then 3 minutes

Power Requirement	AC 110-230V, 50-60Hz
Operating Load	Upto 10A
Wireless Protocol	Wi-Fi
Mobile Application	Hogar SE App

2 SWITCH DIMMER - SMART INSERT MODULE

- Control 2 lights including dimming control through your smartphone or voice commands
- This Wi-Fi based module is retrofit & installs in less than 3 minutes

No. Of output / Channel	2
Power Requirement	AC 110-230V, 50-60Hz
Connectivity	Wi-Fi 2.4Gz
Mobile Application	Hogar SE App

2 NODE - SMART INSERT MODULE

- Control 2 Switches through your smartphone or voice commands
- This Wi-Fi based module is retrofit & installs in less than 3 minutes

No. Of output / Channel	2 ON/OFF
Power Requirement	AC 110-230V, 50-60Hz
Connectivity	Wi-Fi 2.4Gz
Mobile Application	Hogar SE App

3 NODE - SMART INSERT MODULE

- Control 3 Switches / 1 Curtain through your smartphone or voice commands
- This Wi-Fi based module is retrofit & installs in less than 3 minutes

No. Of output / Channel	3 ON/OFF
Power Requirement	AC 110-230V, 50-60Hz
Connectivity	Wi-Fi 2.4Gz
Mobile Application	Hogar SE App

4 NODE - SMART INSERT MODULE

- Control 4 Switches through your smartphone or voice commands
- This Wi-Fi based module is retrofit & installs in less than 3 minutes

No. Of output / Channel	4 ON/Off
Power Requirement	AC 110-230V, 50-60Hz
Connectivity	Wi-Fi 2.4Gz
Mobile Application	Hogar SE App

SMART CURTAIN MODULE

- 1 curtain control through your smartphone or voice commands
- This Wi-Fi based module is retrofit & installs in less than 3 minutes

No. Of output / Channel	1 Curtain
Power Requirement	AC 110-230V, 50-60Hz
Connectivity	Wi-Fi 2.4Gz
Mobile Application	Hogar SE App

SMART DOOR LOCK

SERIES

ATRIO - DIGITAL DOOR LOCK

- 5-way unlock and temporary timed passcode generation
- Industry standard stainless steel back lock

Unlock Feature	Biometric/RFID/Passcode/ Hogar Apps/Key
Door Thickness	35mm - 80mm
User Access	100 Fingerprints 20 Passcodes
Available in	Zigbee & Zwave

SMART HANDLE DOOR LOCK

- Brings all the convenience and security right to your fingertips
- Give you a wider range of options in different scenarios of your daily life.

Door Thickness	30-55mm
Working Voltage	6 V
Unlock Feature	Fingerprint/PIN/Key/Hogar SE App
Available in	Bluetooth

Color Options:

DOOR LOCK WITH MANUAL KEY

- Brings all the convenience and security right to your fingertips
- Give you a wider range of options in different scenarios of your daily life.

Door Thickness	30-55mm
Working Voltage	6 V
Unlock Feature	Fingerprint/PIN/Manual key/Hogar SE App
Available in	Bluetooth

Color Options:

SMART KNOB

- Brings all the convenience and security right to your fingertips
- Give you a wider range of options in different scenarios of your daily life.

Door Thickness	30-55mm
Working Voltage	6 V
Unlock Feature	Fingerprint/PIN/Key/RFID,Hogar SE App
Available in	Bluetooth

Color Options:

ATRIO - STANDALONE DOOR LOCK

- 4-way unlock
- Industry standard stainless steel back lock

Unlock Feature	Biometric/RFID/Passcode/Key
Door Thickness	35mm - 120mm
User Access	100 Fingerprints 20 Passcodes
Available in	Standalone

Z-WAVE

Z-Wave is a wireless communication protocol developed in 1999 by a Danish startup called Zensys, which was later acquired and maintained by Silicon Labs, a semiconductor company based in Texas.

Z-Wave technology has gained widespread adoption in the smart home industry, with over 2,700 certified devices from more than 700 manufacturers. Z-Wave allows smart home devices to communicate with each other using a central hub or controller. It operates on a low-power radio frequency, enabling devices to be placed throughout the home without the need for extensive wiring. Z-Wave devices are interoperable, meaning that devices from different manufacturers can communicate with each other seamlessly. Its reliability, scalability, and versatility make it a prominent option for homeowners looking to build a smarter home.

ZIGBEE

Zigbee is a low-power, low-data-rate wireless communication protocol designed for use in wireless sensor networks and other low-power, low-bandwidth applications. It operates on the IEEE 802.15.4 standard and uses mesh networking to create a network of nodes that can communicate with each other. Zigbee is commonly used in home automation and industrial applications.

WI-FI

Wi-Fi is a wireless communication protocol that is designed for high-speed data transfer over short distances. It operates on the IEEE 802.11 standard and is commonly used in home and office networks, as well as in public places such as airports and coffee shops. Wi-Fi offers high data rates and can connect to a large number of devices simultaneously.

BLUETOOTH

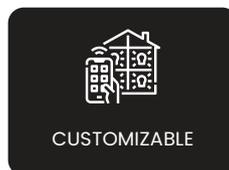

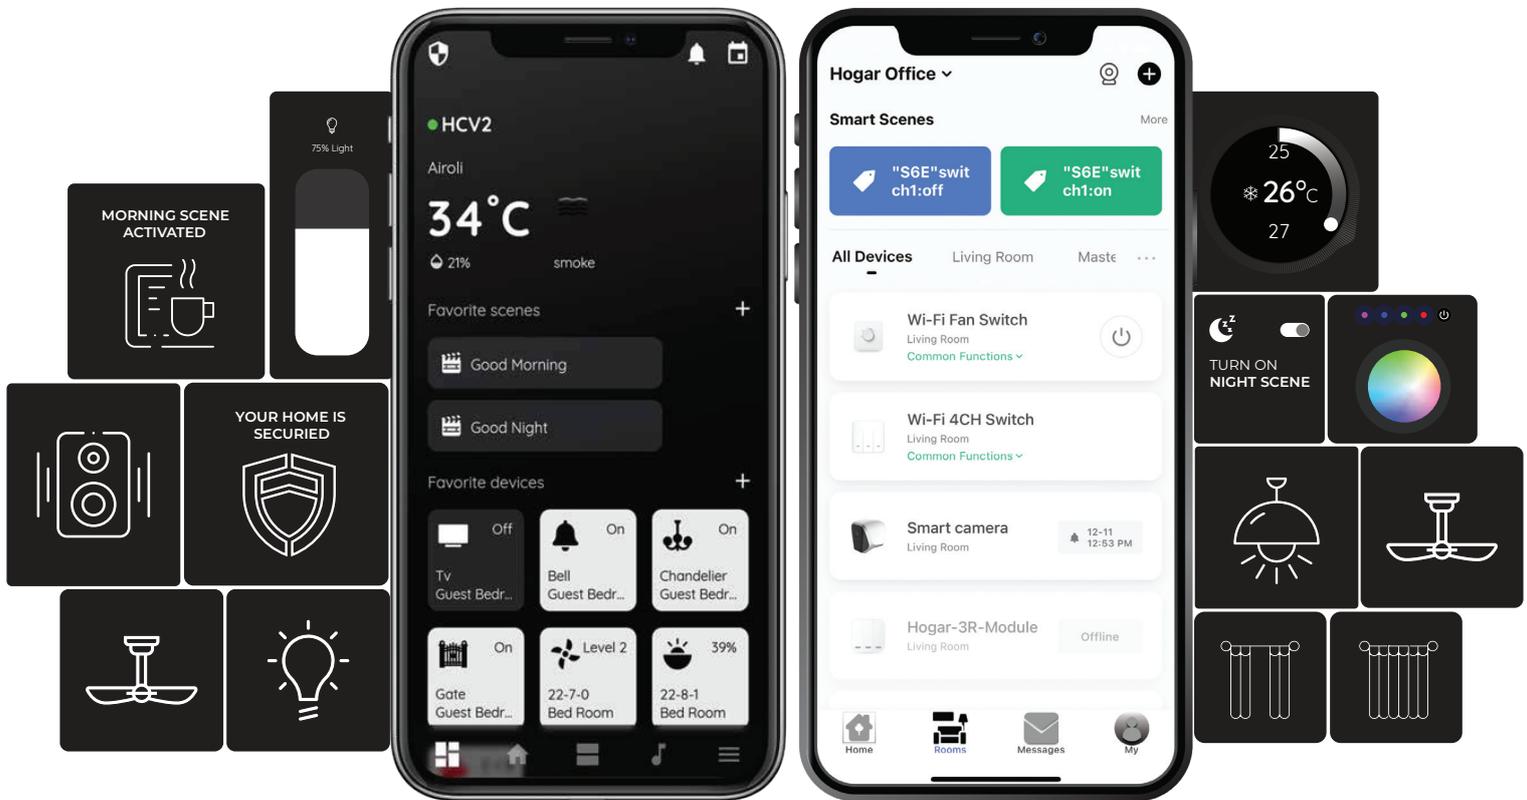

Bluetooth is a short-range wireless communication protocol designed for use in personal area networks (PANs). It is used for wireless audio streaming, file transfer, and other applications that require short-range, low-power wireless connectivity. Bluetooth operates on the ISM band at 2.4 GHz and can connect multiple devices simultaneously.

HOGAR PRO S

HOGAR SE

The Hogar apps offers an intuitive dashboard and the most comprehensive solution to manage your smart home
